Sungshin Women's University

School of Creative Convergence Studies

1. About Us

The School of Creative Convergence Studies offers three academic tracks: Liberal Studies, Cutting-Edge Technology, and Arts & Sports.

The School provides students with opportunities to explore a wide range of academic disciplines and to take ownership of their academic and career planning. During their first year, students actively engage with diverse fields of study, gaining exposure to various perspectives and approaches to inquiry.

Upon entering their second year, students have the opportunity to choose a major within their track based on their interests, strengths, and career aspirations. Through this exploratory and student-centered learning experience, students develop the ability to make informed academic decisions and build the interdisciplinary competencies required in a rapidly evolving society.

2. Mission

The School of Creative Convergence Studies at Sungshin Women’s University cultivates well-rounded leaders equipped with creativity, ethical integrity, and strong problem-solving skills through an interdisciplinary foundation curriculum and the University's six core competencies.

3. First-Year Curriculum

The first-year curriculum is designed to foster academic exploration, career readiness, and informed major selection through a combination of coursework and co-curricular experiences.

The curriculum consists of the following components:
(1) **Core Liberal Arts Courses** designed to develop essential academic competencies;
(2) **Career Literacy Courses** that support informed career planning and development;
(3) **Advanced Liberal Arts Courses** that provide exposure to a broad range of academic disciplines;
(4) **Major Exploration Courses** that help students explore and select their future major; and
(5) **Co-curricular Programs** offered by the School of Creative Convergence Studies.

4. Graduate Attributes

- Well-Rounded Leaders
- Creative Innovators
- Self-Directed Explorers
