Department of Early Childhood Education

Department of Early Childhood Education

Academics

The Department of Early Childhood Education at Sungshin Women's University is dedicated to preparing early childhood teachers who combine a well-rounded liberal education with professional expertise in the field.

To foster creative and well-rounded early childhood educators, the department integrates theoretical knowledge with practical experiences through observations, classes, and internships at affiliated kindergartens.

Additionally, by establishing and operating a collaborative system with outstanding early childhood education institutions, students have the opportunity to explore various early childhood education programs.

Beyond the undergraduate program, the department also offers master's and doctoral programs in the Graduate School, a master's program in the Graduate School of Education, and a master's program in the Graduate School of Lifetime Welfare.

Educational Goals of Departments

- Preparing well-rounded early childhood teachers with professional teaching expertise and a broad liberal education
 - Developing creative and interdisciplinary early childhood education professionals who lead change in the future of education
 - Nurturing autonomous practitioners with a sense of social responsibility and a commitment to their mission as early childhood educators
-

Students Envisioned by Departments

A creative expert in early childhood education who practices the philosophy of early childhood education based on professional expertise as an educator.

Department of Early Childhood Education

Department Facilities and Resources

- Early Childhood Education Practicum Room

The space, located in C1036, Soojung Hall is available for students majoring in Early Childhood Education. It is equipped with various materials for teaching aids production, including a coating machine and a cutting machine. Additionally, musical instruments such as pianos, drums, and ukuleles are available for music activities. The room serves as a collaborative space for students to work together on class projects, prepare for academic events, and practice simulated teaching demonstrations.

- Department of Early Childhood Education Resource Development Room

C512, Soojung Hall is equipped with various teaching aids and materials used in early childhood education. This space serves as a resource for pre-service early childhood educators to explore actual teaching materials, utilize them in class demonstrations, and reference them during teaching aid production. Additionally, the room is utilized for seminars and workshops.

Department of Early Childhood Education

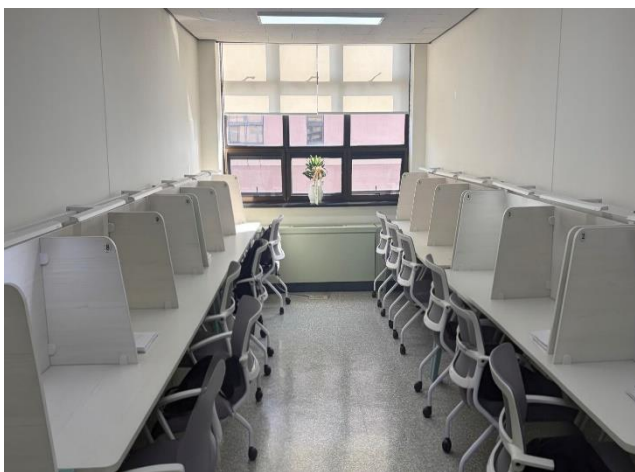

Department Facilities and Resources

- Automatic recording system for simulated teaching demonstrations

A video recording system is available for recording mock lessons of prospective teachers, which can be utilized as a resource for improving teaching. This space is suitable for collaborative team projects, and it is used for major classes in the College of Education, including the Department of Early Childhood Education.

- Teacher Certification Exam Study Room

It provides a space for students preparing for the teacher certification exam to study and offers various online lectures and materials for their exam preparation.

Professors

Bae, Ji Hi
