## Academics

The educational goal of our School of Law is to cultivate "female talents who can actively realize themselves and contribute to the development of the nation and society based on professional legal knowledge." To realize this goal, we are committed to educating our talented students with the best curriculum in theory and practice, centered on faculty members who have the best competencies in Korea, and we are also committed to research, volunteer service, and industry-academia cooperation.

Our students are self-directed in cultivating their majors and liberal arts competencies, and are working hard to proactively respond to the changing era of the 4th Industrial Revolution through various comparative studies activities such as seminars, mock trials, and international exchanges.

We provide free legal counseling on campus and off campus, and we also provide volunteer services to the underprivileged with warmth and consideration. Based on this, we are confident that our students will be able to lead the future of our society as jurists, lawyers, public servants, and corporate executives, and will be able to confidently demonstrate their abilities to the world.

---

## Educational Goals of Departments

1. Cultivating human resources who can actively contribute to the development of the country and society with specialized legal knowledge
2. Developing people who can contribute to democracy with a strong sense of justice
3. Developing people with compassion for the less fortunate

---

## Students Envisioned by Departments

Women with specialized knowledge, interdisciplinary thinking, practical application, and a democratic and global mindset.

# Professors

## Hwang, Tae Hi

Research field	Economic Law, Business Law, Consumer Law
Subjects in charge	Consumer Law, Entertainment Law, Corporate Law
Lab	Sungshin Hall Room 938
E-mail	<a href="mailto:hwang@sungshin.ac.kr">hwang@sungshin.ac.kr</a>
